Professional Summary

Motivated and detail-oriented Software Engineer with over 3 years of full-stack experience, specializing in C#, .NET Core, ASP.NET MVC, and MSSQL. Experienced in building scalable ERP, HR, and POS systems with clean, maintainable code and enterprise-level performance. Currently pursuing a Higher Diploma in Computing in Ireland to strengthen expertise in cloud computing, data analytics, and modern web technologies.

Education

CCT College Dublin, Ireland — **Higher Diploma in Science in Computing (Level 8)** (Feb 2025 – Expected **2026**)

West Yangon Technological University, Myanmar — **Bachelor of Engineering** (Information Technology) (**Dec 2012 – Sep 2018**)

National Management College, Myanmar — **Diploma in Information Technology** (**Jan 2014 – Feb 2015**)

Professional Experience

Full Stack Developer — Golden Artifact Technology, Yangon, Myanmar (**June 2019 – November 2021**)

- Developed HR, POS, and management systems using C#, .NET Framework, and MSSQL.
- Collaborated directly with clients to gather requirements and deliver solutions.
- Deployed systems across multiple client environments and maintained Windows Server 2012.
- Implemented data synchronization via OpenDBDiff and Hamachi-based secure replication.
- Optimized database performance and maintained high reliability across enterprise systems.

Software Developer — Systematic Business Solution, Yangon, Myanmar (July 2018 – April 2019)

- Built HR, POS, and ERP systems using C#, ASP.NET MVC, and MSSQL.
- Promoted to Full Stack Developer within three months for strong performance.
- Assisted in Agile project workflows and mentored junior developers.
- Supported database migration, query optimization, and version control (SourceSafe → Git).

IT Support Intern — KMD Group of Companies, Yangon, Myanmar (April 2018 – June 2018)

- Provided technical and network support for hardware and software maintenance.
- Assisted with LAN/Wi-Fi setup, server configuration, and troubleshooting.
- Gained experience in PHP development and Linux system administration.

Electronics & Retail Support — Family Business, Yangon, Myanmar (Dec 2021 – Feb 2024)

- Supported retail operations by managing POS devices, technical support, and inventory tracking.
- Digitized records and streamlined data entry using spreadsheets and reporting tools.
- Relocated to Ireland to pursue studies in Computing and Software Engineering.

Technical Skills

Languages: **C#, JavaScript, Java, C++, VB.NET, Python, PHP**

Frameworks: **.NET Core, ASP.NET MVC, DevExpress, LINQ**

Databases: **MSSQL, MySQL, MongoDB**

Tools: **Git, GitHub, Anydesk, Hamachi, OpenDBDiff**

Practices: **Agile, CI/CD, Version Control, Debugging**

Systems: **Windows Server 2012, Ubuntu/Linux, Network Management**

Cloud: **AWS EC2, Azure Fundamentals**

Specialties: **ERP Integration, Database Optimization, Secure Licensing Architecture**

Projects

Smart HR Management System — Full-stack HR system with AES encryption, fingerprint attendance integration, and DevExpress reports.

Custom POS Management System — Secure POS software using C#, ASP.NET MVC, and SQL Server for enterprise clients.

Fumigation Certificate Management System — Windows desktop app automating report generation and backups.

IoT Home Automation System — Arduino-based smart home system using C# TCP/UDP communication and voice control.

CarePlus Health Clinic Website — HTML, CSS, JS website hosted on AWS EC2 with EmailJS form.

AI POS Analytics System — In-progress ML.NET + LangChain AI project for predictive POS analytics.

Ongoing Learning & Interests

Exploring cloud computing (AWS & Azure), UI/UX design, and AI-powered analytics. Passionate about IoT, open-source collaboration, and 3D design with Blender. Committed to continuous learning and contributing to innovative, modern software engineering projects.
